THE GREAT JOURNEY

SUPPORT MY club

★ ANNUAL REPORT '17-'18 ★

Follow Phoenix Coding Academy on their path to success!

1. NEW CLUB/TEAM

Public school clubs & teams register on supportmyclub.org.

Phoenix Union's newest school is Phoenix Coding Academy, a Title 1 school in central Phoenix. Approximately 50 robotics students meet in the school's makerspace, which is a workshop designed for all students to learn, create, and innovate.

2. ITEM REQUESTS

Clubs & teams request specific items and experiences they need to succeed.

"A power distribution panel will allow us to build a functioning electrical system for our competition robot. Sprockets will allow us to build our robot's main lift system."

4. GENEROUS DONOR

Search and filter by school, price, or interest area on supportmyclub.org. When you checkout, you receive a receipt for your 100% tax-deductible donation and the items are delivered directly to the school.

Jaime has a passion for computer coding and technology that encourages student curiosity, collaboration, critical thinking, engagement and relevance.

JAIME CASAP

5. ROBOT CREATED

Items are in the hands of students quickly so they can get to work.

Python Robotics showed outstanding enthusiasm and grit throughout their six-week build season and made it through all qualifying matches of the FIRST Robotics Competition.

6. ROOKIE OF THE YEAR

Student dreams come to life. Python Robotics won the Rookie All-Star Award and clinched the final spot for the Championships in Houston, TX.

After attending afterschool programs:

65% of students improve homework completion and class participation.

Nearly 60% of students improve their behavior in class.

1 in 2 students improve their math and reading grades.

-Afterschool Alliance

Phoenix Coding Academy students were new to the robotics world and all they wanted to do was prove themselves. I wanted to help give them that opportunity.

-Jaime Casap, Chief Google Education Evangelist

8. VOLUNTEER SERVICE

For every \$100 of donations, students conduct 1 hour of community service.

Python robotics picked up trash in their school's baseball field to help out the cleaning crew because "they do so much for us".

7. GRATITUDE

Students express their gratitude by writing a thank you note to the donor.

"On behalf of the Python Robotics team, we thank you with all our hearts for your donation. It gives us hope that people such as yourself see small rookie teams and want to contribute to our success. While we may be young, we have dreams of bringing bright minds and big hearts together to better our education. With this donation you not only help us, but you help future students of Phoenix Coding Academy."

10. STRONGER COMMUNITY

Building a stronger Arizona together.

Robotics clubs are preparing a more diverse future workforce for high-demand jobs within the technology sector.

FINISH HERE!

This is just one story of thousands. Fulfill a current request and start another journey for Arizona students. Visit supportmyclub.org today!

9. STUDENT ENGAGEMENT

Well-equipped students are engaged on their path to graduation.

Students who participate in extracurricular activities have higher grade-point averages, better attendance records, lower dropout rates and fewer discipline problems.

★ SUPPORT MY club CAPTAIN'S DECK ★

Our donors enable thousands of amazing students to explore their interests, hone their talents, and have their dreams encouraged.

One small item, piece of equipment, or an experience can change the trajectory of a student's life. We thank you so much in joining our "All Hands on Deck" community approach to support these teens on their path to graduation. As we continue to increase our depth and breadth across the state of Arizona we are preparing for our expansion to meet the needs of students in other states as well. We look forward to an exciting new school year and thank you for sharing this journey with us!
